INTRODUCTION

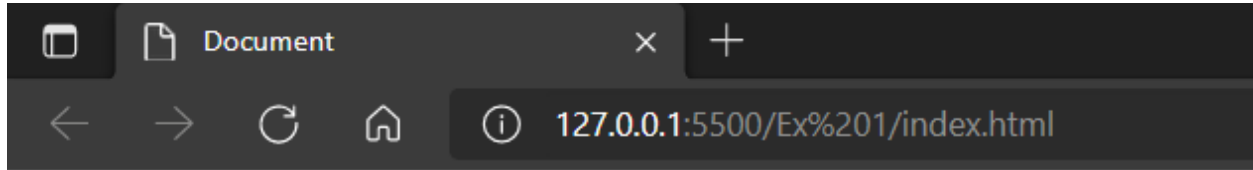

These exercises are meant to keep you practicing thing we learn and what we are about to learn in the course. If you don't know how to solve any of the exercise, please first see the solution and try to figure it out, and if you still don't know how to solve them, please contact me.

The main goal of these exercises is for you to get familiar with HTML and CSS. So, as I said earlier if you get stuck on one, please first see the solution, or continue to the next one.

Best way to learn is to practice coding

Exercise 1

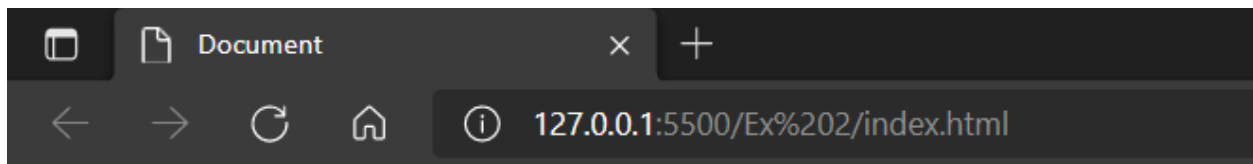

Create a webpage that prints your name to the screen.

Boban

Exercise 2

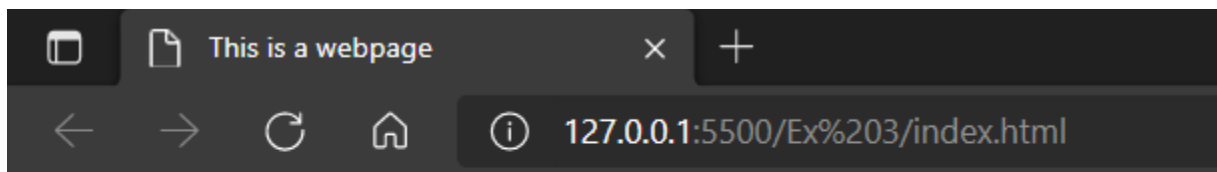

Create a webpage that prints the numbers 1 - 10 to the screen.

1 2 3 4 5 6 7 8 9 10

Exercise 3

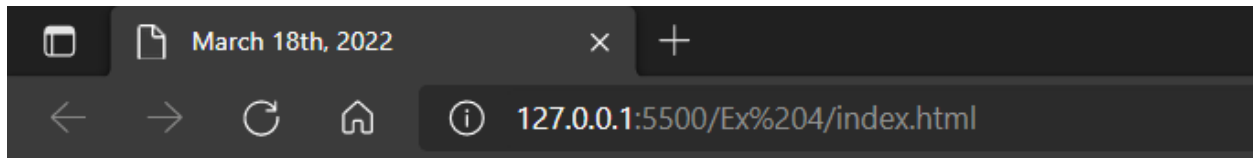

Create a webpage and set its title to "This is a webpage".

The title tag goes in the head section of an HTML document.

Exercise 4

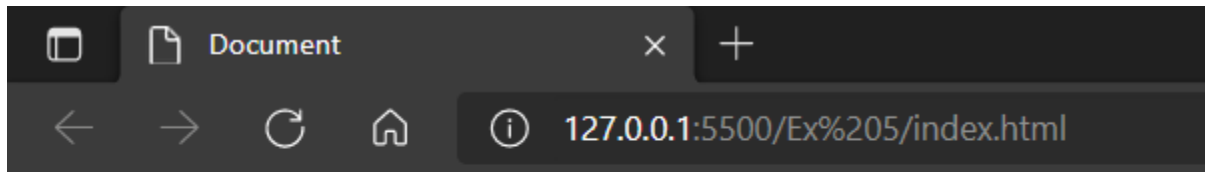

Create a webpage that prints the message "When was this webpage created? Check page's title for the answer." to the screen, and set the title of the page to the current date.

When was this webpage created? Check page's title for the answer.

Exercise 5

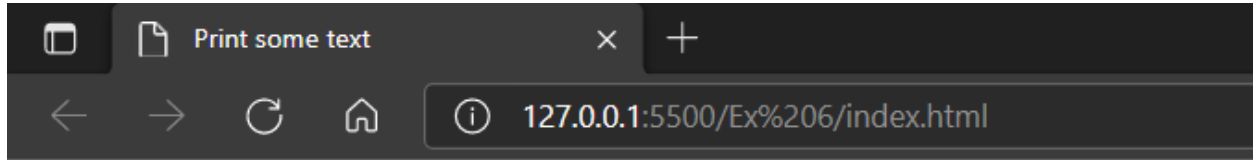

Create a webpage that prints any text of your choosing to the screen, do not include a head section in the code.

The giraffe is a very interesting animal.

Exercise 6

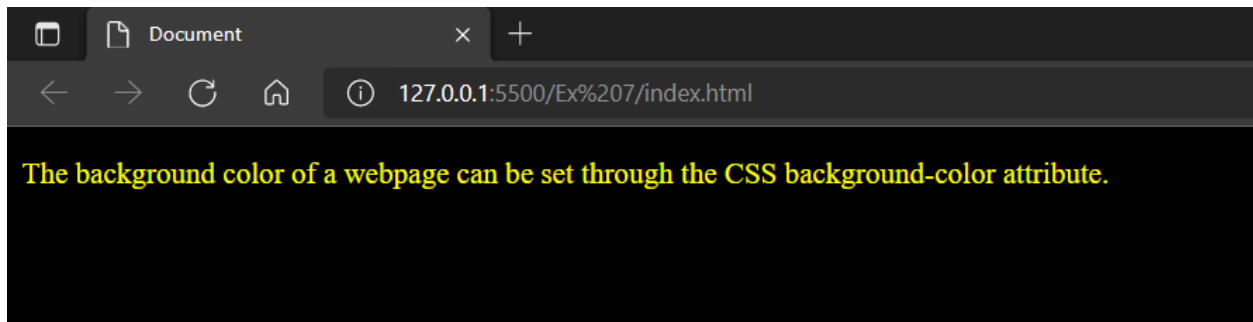

Repeat exercise #5, but this time include a head section in the code.

The giraffe is a very interesting animal.

Exercise 7

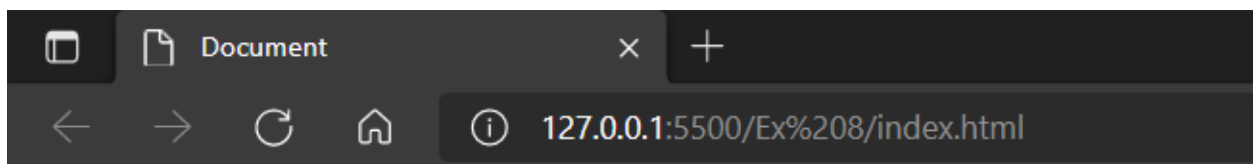

Setting a background color.

Exercise 8

Including comments in code.

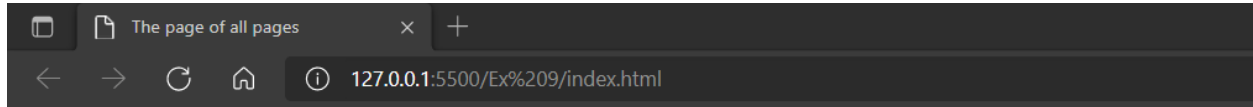

(<!-- This is a comment, it will not be seen on a webpage. -->)

But this text sure will be seen!

Exercise 9

Setting the title of a document.

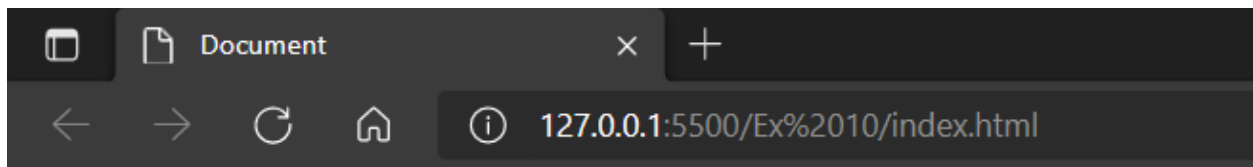

The title of a webpage appears in the upper left corner of a web browser window.

If you look at the upper left corner of your web browser window now you will see the title "Online code editor"

Exercise 10

A simple HTML document.

This is a very simple HTML document with just some text on it.
