INTRODUCTION

These exercises are meant to keep you practicing thing we learn and what we are about to learn in the course. If you don't know how to solve any of the exercise, please first see the solution and try to figure it out, and if you still don't know how to solve them, please contact me.

The main goal of these exercises is for you to get familiar with HTML and CSS. So, as I said earlier if you get stuck on one, please first see the solution, or continue to the next one.
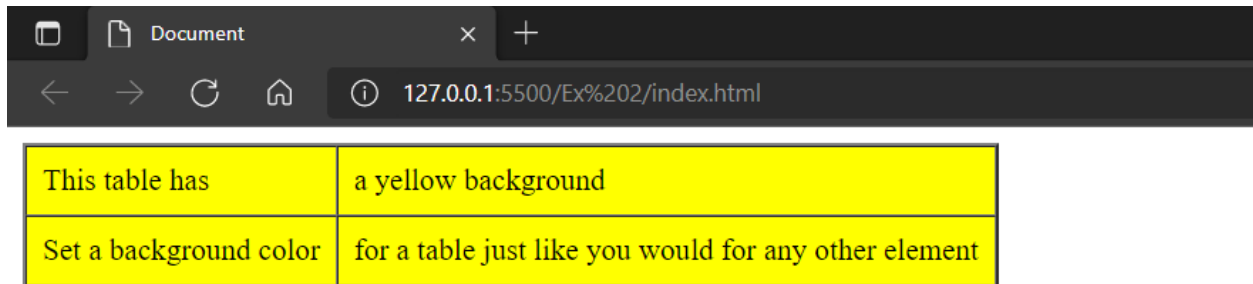

Best way to learn is to practice coding

Exercise 1

Setting a background color.
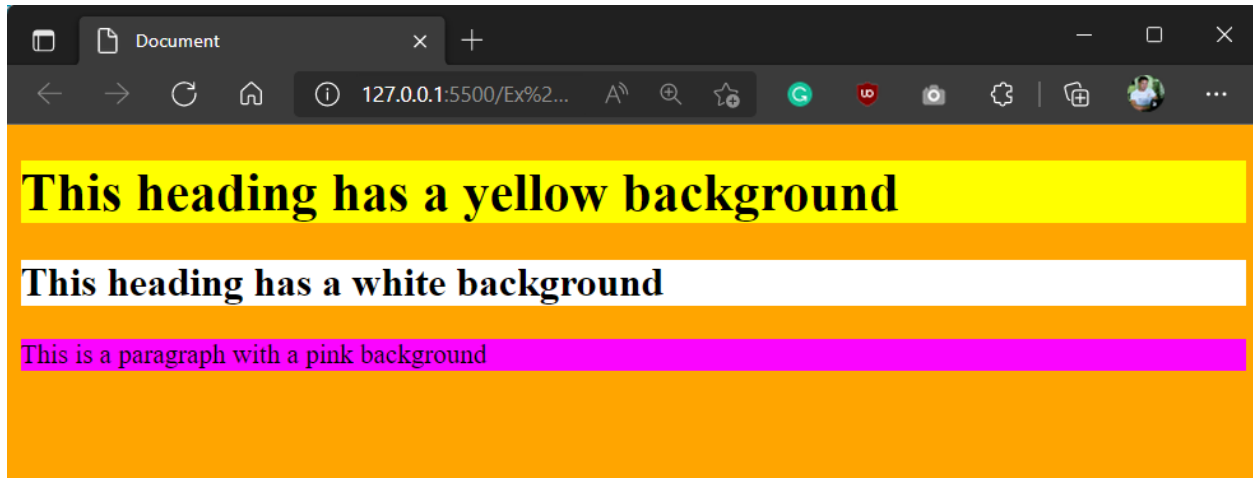

Exercise 2
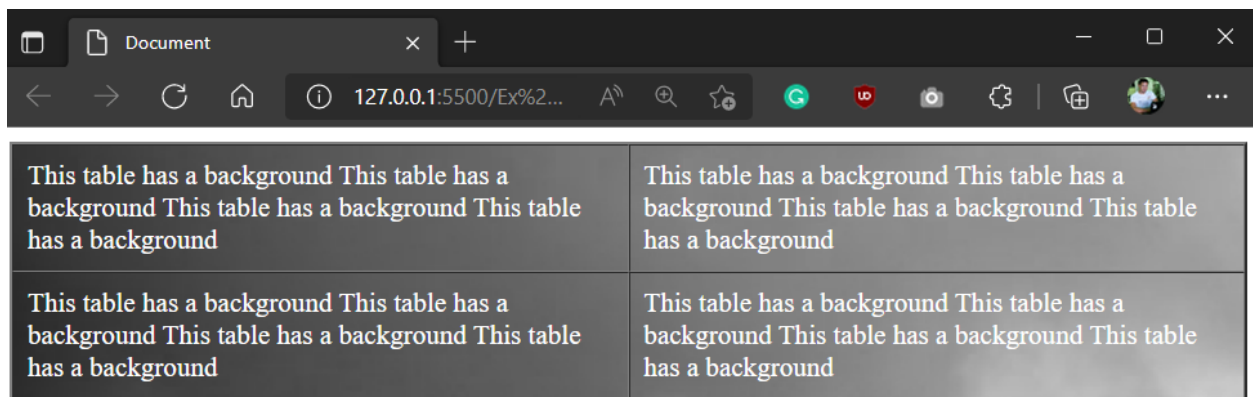

Setting a background color for a table.

Exercise 3

Setting a background image for a page.
For more information go to background-image | CSS-Tricks - CSS-Tricks.

Exercise 4

Setting a background image for a table.

Exercise 5

Setting a background image that does not move.

Go to CSS background-attachment property (w3schools.com) for more information.

Exercise 6

Repeat exercise #5, but this time include a head section in the code.

Go to CSS background-repeat property (w3schools.com) for more information.

Exercise 7

Setting a background image that repeats vertically.
Go to [CSS background-repeat property (w3schools.com)](#) for more information.

Exercise 8

Setting a background image that repeats for the whole page.

Go to [CSS background-repeat property (w3schools.com)](#) for more information.
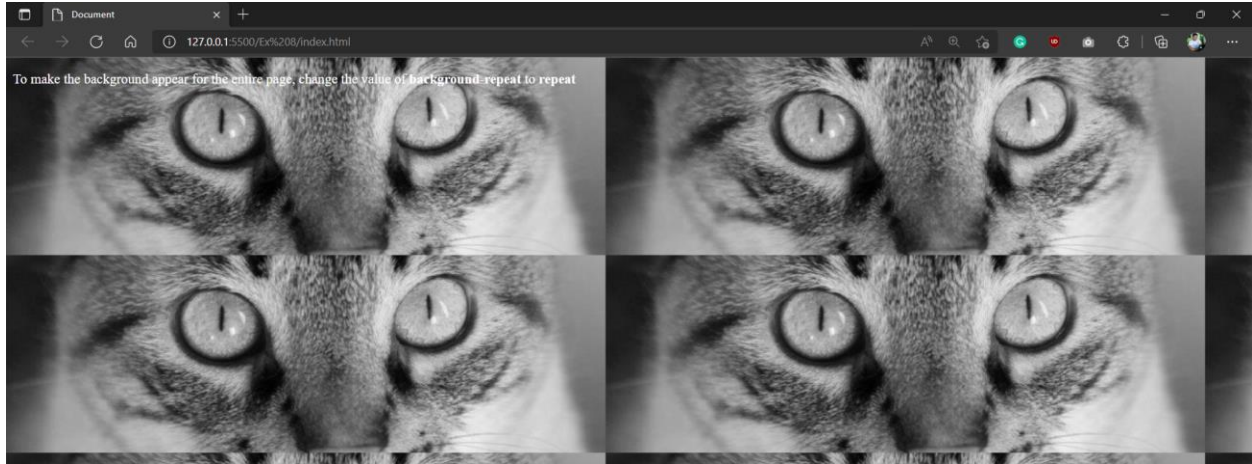

Exercise 9

Setting a background image that repeats for the whole page.

Exercise 10

Setting a background image that is center positioned and does not move.

Try scrolling the page. The background image will not move.
